UPC/ISRC: [auto-generated]

Social Links: [IG: @nahvi_music] ← [@Handle]

[MASTER STATUS: 36/40 FIELDS FILLED ✓]

Here's exactly how to attach that block to your Phase-Tree Spec prompt, plus a one-line explanation you can keep in the prompt itself.

Phase-Tree Spec + Master Form (Final Prompt Shape)

Use this as your prompt body:

PHASE 1: Artist Launch (Core 3)

- ├── Instagram (Social)
- ├── Spotify (Streaming)
- └── DSP (DistroKid → All Distributors)

PHASE 2: Brand Identity Generator ← 1 photo → 3D avatar + visual system

- ├── 1. CHOOSE FANTASY THEME
 - ├── Cyberpunk Neon
 - ├── Dark Fantasy Abyss
 - ├── Synthwave Retro
 - ├── Festival Rave Lights
 - ├── Futuristic AI
 - ├── Tropical Beach Glow
 - ├── International Club
 - ├── Gradient Pop Dream
 - ├── Levity Energy Burst
 - ├── Multi-Prism Vanic
 - ├── MOONLIGHT America
 - └── Bass Dimension Void
- ├── 2. CHOOSE TRIM/ADD-ONS
 - ├── Sharp Geometric
 - ├── Soft Organic
 - ├── Glitch Distortion
 - ├── Holographic Glow
 - ├── Metallic Chrome
 - └── Vaporwave Grid
- └── ADD-ONS:

- | — Circuit Veins
- | — Floating Particles
- | — Neon Wings
- | — Broken Screen Effect
- | — Energy Orbs
- | — Cyber Smoke
- | — Digital Crown
- | — Laser Eyes
- | — Fractal Hair
- 3. FRONT FACING or ALL FANTASY (launch style)
- 4. MASK or NO MASK (for now)
- 5. SELECT YOUR CHARACTER → Full visual system generated
 - | — 'dark trap guy'
 - | — 'happy gradient pop dance'
 - | — 'heady pretty lights'
 - | — 'hard levitiy'
 - | — 'anayma of the future'
 - | — 'Matroda of the international club'
 - | — 'MOONLIGHT of the USA club'
 - | — 'TECH DEMON of the underground'
 - | — 'happy beach of the kygo'
 - | — 'slick and smooth, like LMFAO'
 - | — 'multifaceted Vanic'
 - | — 'dark meaning bass - like illenium'

ARTIST LAUNCH - MASTER FILL FORM

[ MASTER STATUS: 36/40 FIELDS FILLED ✓ ]

```

And you can add this one clarifying line right after it in your prompt:

This Master Fill Form block is an example of how Phase 1 should work on Page 1: 3 inputs auto-fill Instagram, Spotify, and DistroKid fields all at once, showing the “fills X spots” logic in action.

That’s all you need: tree up top (logic), master form at the bottom (concrete example).
